CORPORATE GOVERNANCE.

CORPORATE GOVERNANCE AT THE BMW GROUP.

For the BMW Group, corporate governance is an all-embracing topic which involves all areas of the company. Transparent reporting and a corporate governance policy aimed at the interests of stakeholders are well-established traditions within the BMW Group. Cooperation between the Board of Management and the Supervisory Board, in an atmosphere of commonly shared trust and responsibility has long been the basis for managing the BMW Group. The underlying corporate culture at BMW is based on the principles of transparency, placing trust in others and taking responsibility for one's own actions.

The BMW Group believes that the recommendations and suggestions contained in the German Corporate Governance Code help make the German financial market more attractive, in particular for international investors.
