## **News, blog and events**

Press release - November 15 2024

### **Nearly half of companies use no renewable electricity, reveals CDP**

New report reveals lagging corporate renewable purchasing, undermining global clean energy goals. Major global companies are falling short in their use of renewables, with nearly half using no renewable electricity at all, according to a new report from non-profit CDP released today as COP29's 'Energy Day' kicks off.

## Promising Growth in Climate Awareness: Environmental disclosure trends in Asia - Pacific 2023

Fei Li, CDP - November 14 2024

In 2023, the CDP reported a record-breaking increase in corporate disclosures, with over 8,000 companies from the Asia Pacific region participating—an impressive 30% rise from the previous year. Countries like South Korea, Vietnam, and Cambodia led in relative increases, highlighting a growing commitment to sustainability and climate resilience among business leaders in one of the world's fastest-growing economic regions.
