

Sustainability Reports and Integrated Reports: between transparency and innovation

Leonardo publishes the Integrated Report to offer in a single document a complete, measurable and transparent view of the value generated by the company, connecting financial performance with environmental, social and governance information.

The Consolidated Sustainability Report (CSR), included in the Integrated Report, is prepared in accordance with Italian Legislative Decree 125/2024, which transposes the European CSRD (Corporate Sustainability Reporting Directive) into Italian law, and is drawn up annually in accordance with the European Sustainability Reporting Standards (ESRS).
