2y

Santos delivered its 2025 emissions reduction targets three years ahead of schedule.

Now, we look to our Climate Transition Action Plan which provides a potential transformation and decarbonisation pathway to reduce our Scope 1 and 2 emissions by 30 per cent by 2030, and to reduce our Scope 1 and 2 emissions intensity by 40 per cent by 2030. This will drive progress to achieve our target of net-zero Scope 1 and 2 emissions by 2040.
