

## OUR WORK ENVIRONMENT

### THE RIGHT SPACE

We take great pride in our brands and our products. So imagine if that wasn't reflected in the work environment we provide for our people? We want our people to enjoy working at Monsoon Accessorize, so it makes sense that we invest in making it a pleasant place to be.

Our Monsoon Accessorize stores are visually eye-catching and we make sure that our people have a break area that's suitably relaxing. Equally our state-of-the-art distribution centre provides a modern, safe, clean and super-efficient working environment. As for our Head Office it's got that intangible 'feel' that inspires. Open plan, with meeting rooms and casual break-out areas for idea-generation, there's even a swing merry-go-round which we fire up as the mood takes us.
